

Announcing the 2014 Stream and Watershed Integrated Management Workshop

The Stream and Watershed Integrated Management (SWIM) workshop is designed to train individuals who work with stream and watershed principles and practices. It includes presentations by watershed and stream management professionals from Iowa State University, Iowa DNR, Iowa Department of Agriculture and Land Stewardship - Division of Soil Conservation, and the USDA - Natural Resources Conservation Service.

Classroom instruction in stream and watershed management is augmented with field trips and exercises where participants develop project plans for management of a local site. A Certificate of Participation for continuing education purposes is provided to participants for satisfactory completion of 24 hours of training.

2014 SWIM Workshop
July 29-31
Springbrook Conservation
Education Center
Guthrie Center, IA.
Registration deadline:
June 15
